BLK

Oil & fuel resistant

The outsole is resistant against oil and fuel.

Water resistant Upper (WRA)

Prevents penetration of water if not permanently exposed to high levels.

Antistatic

Antistatic footwear prevents build-up of static electrical charges and ensures that they are discharged effectively. Volume resistance between 100 KiloOhm and 1 GigaOhm

SRC slip resistance

Slip resistant soles are one of the most important features of safety and occupational footwear. SRC slip resistant soles pass both SRA and SRB slip resistant tests, they are tested on both steel and ceramic surfaces.

Steel toecap

Robust metal support to protect the feet of the wearer against falling or rolling objects.

Self-cleaning outsole

Self-cleaning outsoles are designed to reduce clogging of the profile.
